

Nant Bidy access

First cross the **Omani border** at Dibba. At the moment of writing, GCC passport holders and tourists can cross this border without a stamp. UAE Residents, on the other hand, need a pass from an hotel or a company operating on the Omani side. Residents have to go through the Corniche Border post at : *25 deg 37' 32" North; 56 deg 16' 15" East*.

Then reach the dam at *25 deg 39' 18" North; 56 deg 14' 01" East*, where, instead of turning right for Wadi Khab Al Shamsi, you take a **left turn**.

Then follow a winding road, passing a dump to your left (after 2.7km), for 3.6 km and enter the village of Bidy. Drive inside the village for 800m (taking left at the small mosk, then straight on) until the road becomes a dust track. Several parkings are possible before and after crossing the wadi. Park sensibly, do not create congestion inside the small village. This is a sensitive place.

Take a path starting at **25 deg 40' 18" North; 56 deg 12' 50" East** , reach Rainbow Crag in ten minutes then the main cliff in five additional minutes.
